Bachelor of Medicine and Bachelor of Surgery (MB ChB) results since 2002 are based on a criterion-referenced system and are not graded but expressed as Distinction, Pass, or Fail. The award of overall passes with distinction in the second-, third-, fifth-, and sixth-year courses of the programme, the award of passes in individual disciplines in the sixth year with distinguished performance, and the award of degrees with distinction are determined according to criteria approved by the Faculty of Medicine.

Overall results for the degree of Master of Teaching and Learning (from 2015 onwards) with distinction or credit are determined according to criteria approved by the College of Education.

Revised points system

On 1 January 2007, the University of Otago introduced a revised system for the points assigned to each paper, to conform to a national standard for New Zealand universities. The points for papers taken in or after 2007 are three times those in previous years (e.g. a paper worth 6 points in 2006 is worth 18 points from 2007). On academic records, the points shown for each paper are those for the system in use at the time the paper was passed.

Grade Point Average (GPA) information

The University of Otago uses a 9-point scale for calculating GPA values. An annual GPA is calculated using the grades for all papers (including failed papers) attempted by a student during a given year. It is a weighted average, taking into account the differing point values of papers. A cumulative GPA is calculated for all results to date.
